

**For Sale: iPhone 4 Model - A1332 (EMC 380A)**

**Price: Kshs 38,000**

**Contact Lennox on 0720-404878**

**Characteristics:**

- Software** : iOS 4
- Memory** : 32GB flash drive
- Display** : 3.5-inch multitouch
- Wireless Data** : UMTS/HSDPA/HSUPA
- Camera** : 5-megapixel still camera
- Audio** : AAC (8 to 320 Kbps)
- Video** : H.264 / 720p, 30 fpc
- Input/Output** : USB 2.0 port
- Battery Type** : Lithium Ion
- Battery Life** : 7 hours

## Specifications

<a href="#">Modes</a>	<a href="#">GSM 850</a> / 900 / 1800 / 1900 WCDMA 850 / 900 / 1900 / 2100
Weight	4.8 oz (136 g)
Dimensions	4.5" x 2.31" x 0.37" (114 x 59 x 9.4 mm)
<a href="#">Form Factor</a>	Bar. Internal Antenna
Battery	Talk: 7 hours max. (420 minutes) Standby: 300 hours max. (12.5 days) Lilon
Display	Type: LCD (Color TFT/TFD) Resolution: 640 x 960 pixels 3.5" diagonal Colors: 16.7 million (24-bit)
<a href="#">Platform / OS</a>	(proprietary) iOS
Processor	Apple A4
Memory	32 GB (internal memory available to user for storage) or 16 GB
Phone Book Capacity	?
<a href="#">FCC ID</a>	<a href="#">BCG-E2380A</a> » (Approved Jun 7, 2010) <a href="#">BCG-E2380B</a> » (Approved Jun 18, 2010)

## Features

<a href="#">GPS / Location</a>	Type: <a href="#">A-GPS</a> supports <a href="#">LBS</a> , navigation / photo, video <a href="#">geo-tagging</a>
<b>Accessibility</b>	
<a href="#">Adjustable Text Size</a>	only for contacts, mail, messages, notes
<a href="#">Digital TTY/TDD</a>	Yes
<a href="#">Multiple Languages</a>	Yes
Alerts	
<a href="#">Vibrate</a>	Yes
<b>Connectivity</b>	
<a href="#">Bluetooth</a>	Supported Profiles: <a href="#">HFP</a> 1.5, <a href="#">PBA</a> , <a href="#">A2DP</a> 1.2, <a href="#">AVRC</a> , <a href="#">HID</a> , <a href="#">PAN</a> version 2.1+ <a href="#">EDR</a>
<a href="#">PC Sync</a>	iTunes
<a href="#">USB</a>	supports charging
<a href="#">Wi-Fi</a>	Version(s): <a href="#">802.11</a> b,g,n
<b>Contacts</b>	
<a href="#">Multiple Numbers per Name</a>	plus email and street addresses
<a href="#">Picture ID</a>	Yes
<a href="#">Ringer ID</a>	Yes
<a href="#">Voice Dialing</a>	Type: <a href="#">Speaker-independent</a> (automatic)

## Customization

<a href="#">Custom Graphics</a>	Yes
<a href="#">Custom Ringtones</a>	via iTunes only
<a href="#">Real-Music Ringers</a>	via iTunes only

## Data & Network

<a href="#">Data Tethering</a>	<i>Some versions only</i>
<a href="#">Flight Mode</a>	CEA Standard Icon: No
<a href="#">High-Speed Data</a>	Technology: <a href="#">HSPA</a> 7.2
<a href="#">WAP / Web Browser</a>	Browser Software: Safari (WebKit-based) supports landscape mode, <a href="#">multi-touch</a> zoom and <a href="#">pan</a> , and multiple windows

## Input

<a href="#">Predictive Text Entry</a>	Yes
<a href="#">Side Keys</a>	volume on left / lock on top
<a href="#">Touch Screen</a>	Type: <a href="#">Capacitive multi-touch</a>

## Messaging

<a href="#">Email Client</a>	Protocols Supported: <a href="#">POP</a> , <a href="#">IMAP</a> , Exchange built-in attachment viewer (Microsoft Office, PDF)
<a href="#">MMS</a>	Yes
<a href="#">Text Messaging (SMS)</a>	View Style: Threaded

## Music

<a href="#">Headphone Jack (3.5mm)</a>	Yes
<a href="#">Music Player</a>	Supported Formats: <a href="#">AAC</a> , AAC-protected, HE-AAC, <a href="#">MP3</a> , MP3 VBR, Audible, Apple Lossless, AIFF, WAV

## Photo & Video

<a href="#">Camera</a>	<a href="#">Resolution</a> : 5+ <a href="#">megapixel</a> <a href="#">auto-focus</a> , tap-to-focus, <a href="#">LED</a> flash, <a href="#">geo-tagging</a>
<a href="#">Front-Facing Camera</a>	Yes
<a href="#">Streaming Video</a>	Yes
<a href="#">TV Output</a>	Yes
<a href="#">Video Capture</a>	<a href="#">Resolution</a> : 720p HD 30 <a href="#">fps</a>
<a href="#">Video Sharing</a>	over <a href="#">Wi-Fi</a> connection

## Productivity

<a href="#">Alarm</a>	Yes
<a href="#">Calculator</a>	Yes
<a href="#">Calendar</a>	Yes
<a href="#">Voice Memo</a>	Yes

## Software

<a href="#">Games</a>	Yes
-----------------------	-----

## Voice

## [Speaker Phone](#)

---

The iPhone 4, heralded as the "biggest leap since the original iPhone," uses a new all stainless steel body design with an ultra high-density 3.5-inch, IPS, LED-backlit 960x640 326 *ppi* multi-touch "retina" display, mobile and data antennas integrated in the "metal band" that wraps around the sides of the phone, and a chemically hardened "aluminosilicate" glass front over both the display and either a white or black frame and the chemically hardened white or black *glass back* as well. Both the front and back have an "oleophobic" oil repellent coating as well.

It has dual cameras -- a 5 megapixel HD video/still camera (720p at 30 FPS) with a "backside illuminated sensor," a 5X digital zoom, and an LED flash on the rear and a VGA quality video/still camera on the front designed for video conferencing over a Wi-Fi network with Apple's included "FaceTime" application. It has dual noise-cancelling microphones as well.

It is powered by an "Apple A4" processor of unspecified speed, has 512 MB of RAM, and has 16 GB or 32 GB of internal storage. Network support includes UMTS/HSDPA/HSUPA (850, 900, 1900, 2100 MHz) and GSM/EDGE (850, 900, 1800, 1900 MHz). 802.11g/n and Bluetooth 2.1+EDR are supported as well.

Like the [iPhone 3GS](#) that came before it, the iPhone 4 includes a digital compass, A-GPS, and an accelerometer, but adds a 3-axis gyroscope to its list of sensors for additional 3D gaming options.
